Future Forward

Here are some predictions

Current trends on virtual presence will provide the groundwork for truly immersive communication designed to transcend time and space.

What's in store for us?

Next generation holographic communication will soon change the way we work and conduct meetings in the workplace, significantly unifying geographically dispersed employees.

Future of Technology

With 3D holographic avatars and images, offices can significantly reduce the cost of transporting employees in one place, minimizing airspace travel hazards on the environment.

Brief Introduction to WHEELS

An initiative by the Alumni of all the Indian Institutes of Technology in 2006 in response to a challenge from the late President Dr. Abdul Kalam to "Solve the big problems in the world."

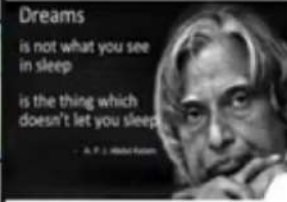

The six areas that we focus on are:

- Water
- Health
- Education
- Energy
- Livelihoods
- Sustainability

- Incorporated as a Sec 8 company in India in 2016
- Incorporated in 2013 as a 501(c)(3) entity in the USA
- Technology-Enabled Philanthropy
- For more details, visit www.wheelshub.org

• Mission: To engage the IIT system and alumni networks to drive technology-based solutions for an integrated, smart development for clean Water, affordable Healthcare, renewable Energy, access to Education, rural Livelihoods, and do this in a Sustainable manner.

Dreams
is not what you see
in sleep
is the thing which
doesn't let you sleep
- A. P. J. Abdul Kalam
